16: June 1886

Sir;

At the request of Mr. Barber our Engraver, I enclose to you too pictures; one of Col: McClure and the other of A. J. Drexel, as samples.

He very earnestly solicits the approval of making a medal such as was talked about when you were here; and he wants one 3/4 photograph looking left, and one profile, both unfinished same as samples enclosed.

It would be very gratifying to me were you to oblige him

Very truly Yours

19 June 6

Sir;

I have received your letter of the 18th inst., approving my awards upon proposals for supplies for the coming fiscal year. I notice two errors, - one a clerical mistake made here, and the other an inadvertence in your office.

First, William Moore's proposition for pine wood was at the rate of $5.81 per Cord, instead of $6.45.

Second - Richard Lenick Sons & Co.'s proposal for sheetings was at the rate of 18¢ per lb. instead of 80¢ as stated in your letter. Will you please advise me of the correc-

tion on your records of these two er-
rors?

Very respectfully
[illegible]
Superintendent

22. June 1880

Sir;

I have the honor to enclose Memos. 996, 997, & 998, of Gold Bullion, being for remittances received from the United States Assay Office at Boise City, to be transferred to the Bullion Fund of this Mint.

Very respectfully

Superintendent

Hon James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE.

June 23: 1886

Sir,

The following telegram sent you this day, is hereby made official. viz:

"Please instruct sellers of Silver Bullion to make no Shipments thereon from the twenty fifth inst. and during the Annual Settlement. We close to Deposits here on that day."

Very Respectfully

Dan'l M. Fox

Sup't.

Hon Jas. P. Kimball.

Director of the Mint.

Washington. D.C.

13: June 60

Sir,

I have the honor to acknowledge the receipt of yours of the 19 Inst. authorizing me to strike for the Three Pawnee Indians to be designated by the Department of the Interior, three silver medals similar to those presented to these Indians, by the Government, in place of others stated to have been lost.

This authority will be exercised so soon as the Department of the Interior will designate the character of the Medal intended and the parties to whom it is to be given

Very respectfully

Wm. Pollock

Superintendent

Hon. James C. Kimball
Director of the Mint
Washington
D.C.

23: June 1[illegible]6

Sir;

Dr Lawrer and his associates are diligently at work in counting the coin both at the P. O. Vaults and in the Mint. This labor being quite heavy and being performed in two places at the same time, necessarily, requires the withdrawal of a large number of our men from their routine duties - not only from the laboring force but from every industrial department - so that the annual settlement shall progress efficiently and rapidly. Although I will be enabled to fill the Quota required of me this month, I am thus naturally limited in the extent of my production.

There has been no cleansing or repairs to the machinery a renovation of the building in the way of painting, Carpentering, &c, for the past two years, and it is very apparent that there will have to be a general suspension of the work in the beginning of the month to enable me to place the building and machinery in proper order for renewed activity.

I therefore beg leave respectfully to suggest that it would be well if I could at once be appised of what your requisition will be for July, as that knowledge will enable me to some extent to regulate the length of the suspension for the repairs above referred to.

I may say also in this connection say

that while the rules allow a period not exceeding "twenty one days" for rests for the employés, I purpose to regulate this also by the information I receive from you, as when I give recess to those for whom by reason of the suspension I cannot utilize in work, I ought to know at an early period the requirements of the Department Boards to direct them when to return to duty

Will you kindly advise me

Very respectfully

Edward A. Fox

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D. C.

[Ed. 10 M 22-86]

24: June 1856

Sir;

In reply to your letter of the 21st inst. referring to me a protest by Mr. Elias Pohl against my award to Messrs. Thomas Williams Jr & Co. of the Contract for Lumber for the ensuing fiscal year, I herewith enclose you the following documents for your information:

1 The original proposals for Lumber received from these parties and opened with other proposals for supplies, at the appointed time, 31 May 12 m.

2 Copy of my letter of June 12d to each of them calling for a more definite and intelligible proposal

3. The itemized proposals received from them respectively in reply thereto.

The first proposals were carefully examined by me in consultation with my Chief Carpenter, and we found it impossible to make an award upon the proposals as presented, but on examination of the itemized proposals received on the 15th inst., in reply, it was found, as you will see, that the proposal of Messrs. Williams & Co. was the lowest. I made the award to them accordingly and am entirely satisfied with my action in the matter.

Mr Pohl called at the Mint since the award was made and was advised by the Schedule clerk of the award, and the grounds on which it was made.

2

When you have done with them, I will thank you to return the proposals to me that they may be restored to their proper place in my files.

The enclosures in your letter - 4 in number - are herewith returned

Very respectfully

W. A. Fox

Superintendent

Hon James T. Kimball
Director of the Mint
Washington

29: June 6

Sir;

In accordance with instructions contained in your letter of the 24th inst., touching the subject of cleaning and repairing the Mint machinery and renovating the building &c &c I have the honor to say that we suspended work yesterday morning, the 28th, having accomplished our requisition for June.

I immediately gave instructions to proceed promptly with the work of repairing and cleaning &c. and, in the meantime gave permission to the Adjusters to take their vacation, giving them leave of absence until the 15th prox.,

by which time I hope to have everything in order to resume the active operations of the institution. I have retained the men for the present in order to assist the Government Officers in counting and weighing the bullion and Coin, and also in accomplishing the repairs and cleaning needed. I purpose giving these men in their turn a like recess, of say, two weeks, for rest and recuperation, when they can be spared, and so that the ordinary and active operations of the Mint shall not be retarded.

In view of the probabilities of the passage of the Sundry Civil Bill, - with the item we desire to have passed, included in it, furnishing the means to obtain new boilers and engine and the

construction of storage vaults in the Mint – becoming a law, I have not yet ordered very radical improvements upon the present engine and boilers. After Consultation with the Engineer and Master Machinist, I learn that the Engine & boilers will run for at least six months more without serious inconvenience, requiring very little repairs, and I have limited the expenditures for this item to a comparatively immaterial sum.

Our men are now tearing down the Melters & Refiner's furnaces and rebuilding them with new fire brick; doing the necessary repairs in the older departments, whitewashing, scrubbing, and cleaning in every direction. I may say

here that as we have but one painter, and many of the rooms require painting, I will be obliged to employ a number of painters to assist in that work, and hope, with their aid to have everything in Condition by the time mentioned - to wit; 15th July next.

Pending this work, I have issued the order that there will be no visitors received.

I trust that the Course adopted will meet with your approval

Very respectfully

Superintendent

Hon: James Kimball
Director of the Mint
Washington
D.C.

29. June 6

Sir;

I have the honor to acknowledge the receipt of your communication of the 28th. inst. stating that the Assayer in charge of Boise City Assay Office, says "that gold bullion is offered at that Office from 450 to 500 M fine, and" asks "if the present limitation of 500 M fine "cannot be changed so as to enable them "to receive it as a matter of convenience "and advantage to the producers"

In accordance with the suggestion contained in your letter, I conferred with Dr. Booth, upon the technical points involved, and also submitted the matter

to Mr Eckfeldt our Assayer.

Their replies to the queries propounded, you will find in the subjoined Copy of their joint letter, which I hope will fully supply the information you desire

Very respectfully
W. L. Fox.
Superintendent

Hon. James R. Kimball
Director of the Mint
Washington
D.C.

(Copy)

Mint of the United States at Philadelphia
MELTING AND REFINING DEPARTMENT.

Philadelphia, 29th June, 1886

Hon. D. M. Fox.
Superintendent.
Sir.

In reply to the queries propounded to me by reason of the Director's letter of 28th inst, permit me to express a somewhat fuller opinion than the Director's letter seems to call for.

I think that no bullion, or bars, showing brittleness, or undue hardness, should be received at our Mint, that therefore they should be toughened before they are sent to us, and for this reason, if no other, that our ignorance of the cause of the hardness, (or brittleness) might lead to excess of cost in our determining and then removing the cause of brittleness, (hardness)

I think that the present limitation of .500ths, is ample. and that anything suitable might be received, even as low as .200ths or .300ths. but that a charge for the separation of such should be made in some proportion to the amount below .500ths. altho, my own preference would be a graded charge for any thing below .800 or .900ths.

Very respectfully
(Signed) Jas C Booth
M & R.

I concur in the above.
(Signed) Jacob B Eckfeldt.
Assayer.

28 June 6

Sir;

I duly received your letter of May 28th desiring to know "what attested copies, if any, of the Mint Troy pound, were made within say five years after its delivery by Capt. Kater and in whose possession they now are."

No one in the Mint has any personal knowledge of this matter and such examination as the unusually heavy pressure upon the Mint has permitted, has not thus far thrown any light upon it. We are now in the midst of the annual settlement and repairs, which will occupy several weeks.

After they are concluded and the annual vacation is over, if the desired facts can be ascertained, they will be duly communicated to you

Very respectfully

Superintendent

D. A. Collonna Esq
Asst. in Chg. Office Weights & Measures
U. S. Coast & Geodetic Survey Office
Washington
D.C.

~~Posey S. Wilson Esq~~

~~Assayer in Chg. U.S. Mint~~

Denver Director of the Mint

~~Colo:~~ Washington

D.C.

30. June 6

Sir;

The Mint has now entered into full repair and renovation.

It has occurred to my mind that there is a subject in connection with it in regard to which I would like to communicate with you — and that is the Adjusting room.

By your own personal observation you are well aware of the Crowded condition of the room; the heat engendered from such an aggregation of persons in active physical exercise; with the effect of the latter upon the health of the operatives, — because, by reason of the delicacy of the ba-

cases the Windows cannot be opened for change of air, and I feel that there should be some alleviation to the hardships the occupants of this room experience, if it can be accomplished without detriment to the public service

With this in view, I have been in Consultation with the Chief Carpenter and others as to the feasibility of finding space enough to form a room, in, what is now the loft above the adjusting room. I am told space enough can be found there, by the aid of raised Skylights - giving plenty of light and air - to enable the room to be used for a dining room, with a range of Closets for storing the street apparel of each lady, with water

closet conveniences and a cooking range. Then if this could be accomplished, the adjoining room could be cleared of all its encumbrances. The Western portion of it is partitioned off for closets, between which and the working part of the room there is a screen, encroaching into the room. On the Eastern end of the room a large part is occupied by a dining table, a kitchen range, a sink to wash dishes, and an arrangement to hold garbage from the table: All these could be removed and then we would have room for the suggested alteration, which if in your opinion feasible and proper would furnish room enough for all the ladies engaged in the work of

work of adjusting to work at the same time, during daylight, viz. from 8 AM. to 4 PM.

This would avoid the present alteration of hours of work, and would overcome the difficulty which now exists where those ladies whose working hours end at 10 p.m. are obliged to expose themselves at unseemly hours in going to their homes, running some hazzard of being annoyed by rude persons.

All this would be avoided, but there would be another advantage by this change and that is, the great saving in gas if the night session be done away with.

I write at this time in this

in this way to inquire whether there is any fund from which the expenditure, which would probably amount to 5000 dollars, could be drawn without further application to Congress. If this latter course is necessary, I would hesitate at this session to present the subject any further. If it is not and we can find an item, in any of the present bills, from which the fund can be drawn, I would, if you approve of it obtain plans, specifications and estimates for doing the work. I beg to add that in one of the appropriation bills there is an item authorizing the expenditure of 200.000 dollars for improvements and repairs to public buildings. Possibly this might avail us

for the small amount I speak of, but if not from that, perhaps from some other.

I submit the matter to your consideration hoping you will kindly give me your views. If it is not feasible, of course no further steps need be taken, but if it is, I am sure it will be a great relief to those engaged in the adjusting room, and the public interests will assuredly be benefited by it

Very truly Yours

Supt

Hon. James S. Kimball
Director of the Mint
Washington
D.C.

Sir

I need for immediate use one thousand blanks, foolcap half sheets, printed and ruled as per enclosed copy. I should have them immediately, and as it is hardly likely that they can be printed at once at the Government printing office, I earnestly request that I may be authorized to procure them here.

Please favor me with an early reply?

Very respectfully

Supt

Hon. James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE.

July 2nd, 1886

Sir,

I herewith forward Statement of Coin deliveries and assay Coins reserved, for the Months of May and June, respectively.

Very Respectfully,

Superintendent,

Hon. Jas. P. Kimball,
Director of the Mint,
Washington, D. C.

July 2nd 86.

Sir;

I herewith return the papers and circular relative to Stationery for the Six Months ending December 31st 1886, received from your Office this morning, and as requested have added a completed inventory of Stationery on hand.

Very Respectfully,

Superintendent.

Hon. Daniel E. Manning,
Secretary of the Treasury,
Washington, D. C.

June 2nd

SUPERINTENDENT'S OFFICE

7: July 6

Dear Sir;

I have in my custody four sealed boxes said to contain annual assay coins for the first and second quarters of the current calendar year. Two of them are from the Mint at New Orleans, but the letters of advice do not give the amount & denominations of the coins enclosed.

The other two boxes are from the Mint at San Francisco, and the following statements of their contents was furnished me by the superintendent of that institution.

First Quarter 1886

" 16 packages Eagles, valued $2,700.

58 packages Half Eagles	$ 5.480
Total	$ 8.180 "

Second Quarter 1886

12 packages Eagles, value	$ 1.960
50 " Half Eagles "	$ 4.090
	$ 6.050

Very respectfully

9. July 61

Sir;

I had the honor of receiving on the 1st. of July your letter of instructions under date of 30th ultmo., to coin the amount of silver on hand, available for the purpose into dimes immediately after the resumption of operations.

We have on hand available for this purpose silver to the amount of but 48871.54 ozs. As this will hardly be of sufficient relief in the present emergency, as per your letter, I would recommend the transfer by you from the New-York Assay Office, of such an amount as in your judgment would be sufficient quantity to supply silver for not only dimes for circulation, but for the manufacture of such subsidiary proof Coins as may be required

during the balance of the year

Very respectfully

A. M. Fox

Superintendent

D.C.

Superintendent

July 16th 6

Sir;

In carefully re-examining the award of Contracts for Supplies for the current fiscal year, submitted to you in my letter of June 15th I discover two Clerical inaccuracies in price that I desire to have corrected in the books of your office, viz; under the head of "Dry Goods" the first two items of the award to James Oliver should be Duck, at 8 1/4 ¢ per yard instead of 8 3/8 ¢; Muslin, at 5 3/4 ¢ per yard instead of 6 1/4 ¢ per yard; the corrected prices being those specified in his original proposal. The mistake was an error in copying.

Very Respectfully,

Superintendent,

Hon. Jas. P. Kimball,
Director of the Mint,
Washington, D.C.

10 July 6

Sir;

In consequence of the accumulation of orders for Standard Dollars during the period of the Annual Settlement and the necessary Control of the vaults by the Treasury Agents, pending the same; there was some delay in the shipment of Coin; but by the 8th instant, the first day the vaults were reöpened and business was resumed, every order was filled.

I report this fact to you at once, in order that you may be enabled to explain the cause of our past delay to inquiring

depositors

I am, very respectfully,

Superintendent.

Assistant Treasurer U. S.,
New York.

[E.D. 7-25-85. 1000]

Please forward another Check Book, as we have but a few left, the last number being 3400.

Supt.

13: July 6

Sir;

Christian G. Kersting, Conductor in the General Department, having resigned his name will be dropped from the Rolls after this date;

Very respectfully

Superintendent

Hon James P Kimball
Director of the Mint
Washington
D.C.

13: July 60

Sir;

I had the honor a few days ago to report to you that I was having the Mint building, its appliances, and furniture completely renovated and put in order.

In careful examination of the various parts requiring attention it was ascertained that in a well in close proximity to the foundation of the engine there was an unusual trickling of water as though a leak had occurred. A portion of the flagging of the floor of the Cellar in that locality was removed for the purpose of ascertaining where the trickling sound came from,

and its cause and to the amazement of not only myself but also the workmen, a large opening presented itself probably 10 feet deep, and 8 feet long, and extending quite under the foundation supporting the large "steeple" engine.

The cause of this was found to be the corrosion and eating away of about 30 feet of the large 10 inch drainage pipe, through which waste water and the refuse from water Closets &c was supposed to pass, into the public sewer. By reason of this breakage the water had washed away the earth surrounding the engine foundation, and even carried away the wall of the well, percolating through the earth at the very foundation and leaving the cavernous opening mentioned.

The Engineer in Chief, the Chief Carpenter, and the Foreman of the Machine Shop all concurred in saying that it was only a question of time when the foundation of the engine would give way & the engine itself fall. That this occurred it would have severed itself from the boilers. This would have occasioned great destruction of property, probable loss of life, and stopped the operations of the Mint for a long time.

I regard it as exceedingly fortunate that this was ascertained at the present time, during the cessation of business by reason of vacation.

Action was immediately taken to fill up this vast hole, and also the well, and strengthen the foundation of the Engine

and the work will be completed to night. I expect to have the fires started and the Engine set running tomorrow, in advance of the return of the men to work on the following day, - in order to test the thoroughness of the repairs we have been making.

I enclose a copy of the joint letter of this date from John Bonner, Chief Engineer, and Samuel James, Foreman of the Machine Shop, in which they recommend that the attention of the Superintending Architect, be called to the subject of the settling of the earth. I join in their request and believe the repairs now being made will be sufficient, but still regard it as essential that his attention should

4

be called to this important matter

Very respectfully

Superintendent

Hon. James P. Kimball
Director of the Mint
Washington
D.C.

(Copy)

Engineers Office July 14th 6

Hon. Daniel M. Fox
Superintendent
Dear Sir

In obedience to your request that we examine and report to you the condition of the foundations underlying the large Steeple engine, respectfully Submit that the same are so completely undermind on the north Side, extending past the Centre of the engine, by the continued washing out of the earth into the well at the north Side; the walls of which now seem to be the only support to the foundations on the north Side.

As the walls of the well are in

bad condition and the strain of a 24" belt to the main rolling shaft occurs in that direction, we deem it a matter of such serious consideration, that we advise you to consult the supervising architect.

Should the foundations give way and let the Engine down, then would occur a loss of life by the rupture of the steam pipe, the escaping steam would completely shut off all approach to the boilers; and only cease when the boilers had been emptied.

The giving way of the foundations is the result of the wear above mentioned for years past, and could not be seen at the surface; and was only discovered in the search

for a leak which was found to be filling the well continually, requiring the same to be pumped out every day.

Very respectfully,

(Signed) John Bonner Chief Engineer
Saml, James, Foreman Machine Shop.

Mint of the United States at Philadelphia.
SUPERINTENDENT'S OFFICE.

13 July 6

Sir;

Under Sect 3574 Revised Statutes I have appointed Abram C Roadhead, a resident of this City, Contractor in the General Department of this Mint @ $3 per diem, to take effect from the date of his official oath and submit the same for your approval — vice C.G. Kendig, resigned

9, 19th 6

Sir

In reply to your (S.S.) favor of 9th inst. suspending my account of Ordinary Expenses, for the Quarter ending March 31st 1886. for explanation as to the charge for Porters fees ($1.) entered on Voucher No. 88. February Abstract. H. G. Torrey: "traveling expenses". I have to say that it has been customary in times passed, to allow such fees, when reasonable, to those appointed by the President to attend the Annual Assay, held at this Joint, as well as, to the ex Officio Members of the Assay Commission, when traveling from a distance, as you will perceive by a copy of a letter (signed) H. G. Torrey Assayer, to me addressed, under date July 13th 1886. herewith enclosed. Having had no instructions to the contrary, the bill was rendered the Department in the customary way. Trusting that the explanation will be satisfactory, & that the suspension will be removed, I remain, Very Respectfully

SUPERINTENDENT'S OFFICE.

19: July 1856

Dear Sir,

Your inquiry of the 7th inst. with regard to some proposed rules for the Government of Adjusters was duly received and referred to the Coiner, Mr Steel, for his consideration.

I herewith enclose a copy of his reply, and beg to add that I entirely concur in the opinion he expresses, that so far as this institution is concerned no formal rules, as suggested, are necessary. It may be different in New Orleans, but certainly is not the case here

Very respectfully

[signature] [signature]

Superintendent

Dr E. Preston Esqr

Mint of the United States at Philadelphia, Pa.,

COINER'S DEPARTMENT,

July 17th, 1886.

(Copy)

Hon Daniel M. Fox

Superintendent

Dr;

In reply to the inquiry contained in the letter of Mr Preston of the 7th inst, relative to the existence of any "regular set of rules for the Government of the Employees in this Mint", I beg to say, that I have never known of the existence of any special rules for that purpose - They are required to be here on time and to attend to their duty during the prescribed working hours, and while at work are subject to the directions of the Coiner and such personal instructions as the Superintendent

may have to give at times as the pressure upon the Mint for Coinage may require — I do not see any occasion for a formal set of rules for the guidance of our Adjusters.

As far as the Mint is concerned, there never has been a time when the above has not been found thoroughly adequate and sufficient to meet any and all emergencies, and any demand which may be made upon us

Very Respectfully
Your Obt Servant

D.C.

Mint of the United States at Philadelphia, Pa.
SUPERINTENDENT'S OFFICE.

21. July 1886

Sir,

Among the awards of Contract for material for the current year, was one that Mr. James Oliver for duck, the only qualification being that it should be 8 ounces to the yard, and we have received a portion of the goods which was equal to the sample sent, which was 8 ounces to the yard: But on making up the material it was discovered that it was scarcely strong enough for the purpose for which it was intended. The price was 87½ per yard.

I have concluded that it would be to the advantage of the public interest to annul that Contract and with your permission

make another contract with the same individual for a little heavier and stronger material, and which would cost 1/4 ¢ more - a 8½ ¢ per yard.

The proposed material has been submitted to the Coiner and the Cashier, as it was intended for Coin and they both approve of the substitute;

Will you be good enough to advise

Very respectfully

A. L. Fox

Superintendent

Hon: James P. Kimball,
Director of the Mint,
Washington

Sir;

In reference to the striking of certain silver medals for the Pawnee Indians, — concerning which correspondence has passed between the Department and this Mint, — I beg to say that I am yet without authority from the Department of the Interior to strike them, and without which authority I cannot proceed.

Have the kindness to obtain the necessary permission so that the work may be proceeded with. I am already in receipt of funds in payment of them.

Very respectfully

Dillel M Fox

Superintendent

Hon James R. Kimball
Director of the Mint
Washington
D.C.

23 July 6

Sir;

I have the honor to be in receipt this morning from you of a copy of the report of Isaiah L. Holmes Esq. General Superintendent of Repairs making report upon the Washout found in the basement story of this Building and extending quite a distance under the foundation of the large "Steeple Engine" located there in which after approval of the steps I had taken in making the foundation secure, he recommended that a plan should be made showing the system of piping in the building and the location of the same; as also the main and partition walls; with a description of the thickness of each in feet

and inches, with your endorsement upon the same, and requesting that the information asked for be furnished as a bases for further action by the Supervising Architect.

I beg to say that there does not appear to be any plan in this Mint and from the report referred to, and reference, I do not suppose there is one in the office of the Supervising Architect, of the location of the pipes for gas, water, & sewage. Neither does there seem to be any in the Gas Water & Highway department of our City.

I am informed by the foreman of the Machine Shop who has been here many years & also the Carpenter and Plumber of this Mint, that the pipes have

from time to time been laid without re-
gard to system, and indeed, to the loca-
tion of prior ones. It is obvious then that
unless we do uncover the whole of the
space embraced in the basement, it
would be impossible to furnish the in-
formation desired

I have great hope that the item
embraced in the Sundry Civil Appropria-
tion Bill approved, for transferring the
steam plant and construction of storage
room for the treasure, in the centre of the
building, will ultimately be approved,
and passed by Congress. It would in
making such an improvement become
necessary that there should be consi-
derable excavations in the removal of
the steam machinery and boilers and

that would probably uncover so much of the soil of the basement as to enable us to make the investigations with comparatively little extra expense, and then I could furnish the information.

It seems to me that the cautionary measures already taken for security of the enquiry, and the examination though somewhat superficial will prevent all apprehensions of future caving in — at any rate for some time to come, and therefore the actual digging and uncovering all the soil of the basement at the present time for the purpose of obtaining the information required, might with propriety be deferred.

If any report prior to that is
desired I will be happy to be in-
structed to that end.

Very respectfully
D. M. Fox

Mint of the United States at Philadelphia

SUPERINTENDENT'S OFFICE.

30: July, 1866

Sir,

You are hereby authorized to take charge of the Night-Watch at the Mint, until further notice

Very respectfully

Superintendent

Mr John Jordan
Officer in Charge P.O. Vaults

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE,

30: July 1886

Sir

You are hereby authorized to take charge of the Guard at the New Post Office Vaults until further notice

Very respectfully
D. M. Fox
Superintendent

Mr Thomas H. Rinker
Watchman, P.O. Vaults

July 20th 1886

Sir.

I have to acknowledge the receipt of your letter of the 29th ult. suspending the sum of twenty seven dollars and fifty nine cents ($27.59) in my Medal Fund Account for the period ended March 31st 1885.

The items of $12.56 and $1.68 as rendered upon the face of my account for the cost of bullion are correct and I enclose herewith Corrected Vouchers for the same, the proper rate of the bullion being $1.25 per. Ounce Standard and not $1.00 as inadvertently printed upon the forms. Please substitute the enclosed vouchers for those already in your office.

The Vouchers Nos. 1, 2. and 3. are herewith returned completed.

With these explanations I cover the total suspension of $27.57.

Very respectfully

Superintendent.

M. J. Durham Esq.,
First Comptroller of the Treas.,
Washington,
D.C.

Philadelphia July 30th 1886

Sir:

In obedience to orders received from you in your Circular Letter of August 20th 1885. I have regularly forwarded to your Office memorandum bills for dies manufactured and delivered the other Mints during the last fiscal year, together with an Account Current for the same. As no acknowledgement has yet been received from you of the receipt of these Accounts, neither any draft in reimbursement for the expense incurred, I have thought it proper to call your attention to the subject

I am very Respectfully

[illegible]
Supt

Dr James P Kimball
Director of the Mint
Washington D.C.

30: July 6

Sir

William H. Banks have resigned his position of Capt. of the Night Watch in this Mint his name will be dropped from the rolls after the 31st inst.

[ED. 7-28-85. 1000]

Mint of the United States at Philadelphia, Pa.,
SUPERINTENDENT'S OFFICE.

July 30th, 1886.

Sir;

I have to acknowledge the receipt of your letter of the 28th inst, authorizing me to have the Ledger for which I made requisition on the 16th inst, manufactured in this City, if, after an examination of the subject, I find that such an account book is "actually necessary".

My object in calling for a book of this kind is to enable me to keep a daily record of the transactions of myself not only with the four operative departments in a general way, but also to trace the course of supplies issued to these departments into their respective subdivisions as far as may be practicable, and also to know to what extent the work of the mechanics has been done in any of the various departments

of the Institution.

My prime object in doing this is, first, to have as full and accurate account of my operations as is possible, and secondly, to carry out your views as set forth in your circular letter of August 20th 1885.

If however you now feel that the detail is unnecessary and will not warrant the expense, advise me.

Respectfully,
Wm McFee
Superintendent.

To
Hon Jas. P. Kimball
Director of the Mint
Washington, D.C.

Mint of the United States, Philadelphia, Pa.

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE

Aug 9th 1886

Sir:

I have the honor to report that the approximate amount of "Silver Bullion Purchased for Standard Silver Dollars" on hand at the close of business this day is 2.239.774.10 fine ounces, together with 370 gross ounces unassayed.

Also the amount of "Treasury" and "Domestic Purchases" and "Parted Silver" received during the month, and assayed, to date, to be as follows, viz:

Treasury Purchases - - - - - - 360.845.28 Fine Ounces
value $339.123.90

Domestic and Parted - - - - - - - 3.749.21 ozs "
value $3.588.49

Very respectfully,

Your obedient servant,

H C Hickok
Acting Superintendent

Hon. James P. Kimball
Hon. [illegible],
Director of the Mint, Washington, D. C.

August 9th

Sir;

In reply to your inquiry of the 7th inst, as to how soon and in what amounts we can receive transfers of minor coins from the Treasurer, U. S, to be cleaned and reissued under the special appropriation of $5,000. to cover the cost of transportation, I have the honor to state, that after very careful examination, I find that it will not be practicable at present to receive any of the proposed transfers, for want of storage room. We have no vault room available, even temporarily, for this purpose. What arrangement can be made to accommodate these redeemed minor coins, and hold them in safe custody until reissued, I cannot at this moment conjecture, but would suggest that action in the matter be deferred until Superintendent

Fox returns from his summer vacation, which will be in about ten days.

Very Respectfully

H C Hinsdale
Acting
Superintendent.

Hon Jas. P. Kimball,
Director of the Mint
Washington, D.C.

August 9. 6.

Sir;

Shipment No. 21 of gold bullion from your office, for coinage, on Government account, specified in your letter of the 6th inst. has been received to day.

Very Respectfully

H C Hasbrouck

Acting Supt.

Robt. P. Maring, Esq

H C Hickok
Acting Supt.

H. F. Wild, Esq
Assayer in Charge,
U.S. Assay Office,
Boise City, Idaho.

August 10. 6

Sir;

In compliance with your request of the 7th instant, I have to state that the deposit of Sigmund Herzberg, Chicago, Ill. was returned to him by registered mail on the 5th inst. - because it was too small to be received and also because the little bar was almost entirely base metal.

The net weight of the mutilated coins received from John G. Phelan Wallingford, Conn. was 4.98 ounces, which at 81 cts per oz. amounted to $4.03; a check for that sum was mailed to him on the 9th inst.

The deposit of Charles Lamy

Buffalo, N.Y. per American Express was received July 22nd. It was composed mostly of Trade Dollars, a few mutilated coins and some counterfeits, but no mutilated currency. The proceeds $139.40 was delivered to the Adams Express Company July 24th.

Very Respectfully
H C Hickok
Acting Supt.

Hon. James P. Kimball,
Director of the Mint,
Washington, D.C.

August 11th 6

Sir;

I have the honor to forward you to-day, a box containing my Bullion accounts for the 2nd Quarter 1886 - Also my ordinary, Standard Silver Dollar Coinage, Standard Silver Dollar Storage and Refinery accounts for the Month of July 1886.

It is proper to State that voucher #281 of the ordinary account, July 27, Mrs Annie Black, for Fire Melts, was paid before your instructions of July 26th were received. Your letter of that date was not received until July 28th. I trust that under the circumstances the voucher

will not be rejected for an error in form that was not known at the time to be an irregularity, the bill having been made out merely as a clerical accomodation for the woman who was hardly able to sign her own name.

Very respectfully
H C Hickok
Acting Supt.

Hon James P. Kimball,
Director of the Mint,
Washington D. C.

August 11. 76.

Sir;

All the Stationery specified in your invoice No 8. of July 28th was duly received, except "1/6 Gross Thumb Tacks", which were not found, in either of the two boxes sent.

As they are very much needed, I will thank you to cause them to be forwarded, by mail or otherwise. Upon their arival, the invoice will be receipted and returned to your Office.

Very Respectfully,

H C Hasbrook

SUPERINTENDENT'S OFFICE

August 14th 1886.

Dear Sir,

In reply to your favor of the 13th inst. I regret to say that it is not in my power to send you a Gold dollar of the year 1847. We have no Coins of old dates except in our Cabinet Collection. You could perhaps procure one from Lyman H. Low, 838 Broadway, N.Y. The one dollar note enclosed in your letter, is herewith returned.

Yours truly,

Chas. M. Foy
Supt.

Prof. A. G. Torrey
U.S. Assay Office
New York.

Acting Supt

James C. Booth, Esq
Melter & Refiner.

August 14th 6

Sir,

I have this morning received your letter of the 13th inst. calling my attention to the necessity of making early arrangements to receive, in such quantities as may be convenient, redeemed minor coins now in the Treasury, U. S. which it is proposed to transfer to this Mint, to be cleaned and reissued to meet the urgent popular demand; and in reply I beg to state that the subject has received anxious consideration here, and I assure you every effort will be made to meet the expectations of the Department, as soon, and as fully, as circumstances will permit. As you have already been

advised, the immediate difficulty in the way of instant action in this matter on our part, is the want of vault room for the safe keeping of these coins while not under actual treatment, and until they can be shipped, as all coins must necessarily be locked up in vaults at the close of business each day, and thus securely held until, for whatever purpose, they are required to be taken out.

I find that, with your acquiescence, room can be made in one of our small three-cornered vaults, to receive, for transient purposes, moderate quantities of redeemed minor coins it is proposed to transfer to us. We now have in it the sum of $3.839 87/100 belonging to our Minor Coin exchange account, most of it mutilated coins, and unfit for cir-

culation, that were received in exchange for new minor coins, under the authority of Section 3529 of the Revised Statutes. If the Department will authorize these coins to be recoined, or to be turned over to the Melter and Refiner to be melted down into bars or ingots and held for subsequent re-coinage, it would give us the use of that vault for the coins you intend to transfer, and enable us by good management to handle, say from $8.000 to $10.000 of transferred coins at one time.

This seems to be the most feasible and safe plan that presents itself, in this over-crowded Institution, to secure the needed storage room, and await

4

your instructions with regard to it.

Very Respectfully

H C Hickok
Acting Supt.

August 20th

Sir;

Respectfully referring to your instructions under date of the 18th and 19th inst, with regard to clearing and reissuing minor coins in the Sub-treasuries, and recoining uncurrent minor coins now in the Treasury, as authorized by a clause in the Act of August 4th making appropriations for sundry civil expenses of the Government, I have to report, that the knowledge which came to us yesterday for the first time, of the authority to recoin uncurrent minor coins of old issues now in our hands, at once relieved from all embarrassment in arranging to comply with your directions.

The uncurrent coins last above referred to have to day been delivered to the Melter and Refiner, and we can to-morrow,

Saturday, receive the first transfer of minor coins from the Subtreasuries, but not to a greater amount than ten thousand (10.000) dollars, one half, as you direct, in one cent pieces, and one half in five cent pieces. To forward more than that amount in any one shipment will only hinder and retard our operations, and cause delay when delay would be most undesirable.

The work of cleaning and reissuing these coins will be pushed energetically, and calls upon you for further transfers will be made as fast as we can handle the coins. It is our earnest desire to relieve the pressure upon the Department and fill orders for minor coins as soon as it may be financially practicable to do so.

Very Respectfully,

H C Hickcock

Acting Supt

Hon Jas. P. Kimball

Director of the Mint

Washington, D.C.

August 20th 6

Sir;

In pursuance of the authority contained in a letter from the Director of the Mint under date of the 18th of August inst. you will receive from the Cashier, to be melted and re-coined, the following denominations and values of uncurrent minor Coins, now in his hands, viz

Old Coppers — — — —	$ 84.93
Nickel 1¢ pieces — — —	585.63
Bronze 1¢ do — — —	444.40
do 2¢ do — — —	1.059.94
Nickel 3¢ do — — —	239.97
do 5¢ do — —	1.425.00
	$ 3.839.87

The one cent copper-Nickel and the

three and five cent nickel pieces to be recoined into five cent nickels; and the one and two cent bronze pieces into one cent bronze pieces as early as practicable.

Very respectfully,
H C Hickok
Acting Supt.

James C. Booth, Esq
Melter & Refiner.

Aug 26th 6

Sir,

Referring to the closing paragraph of your letter of the 23d inst. which states that "The Expenses of transporting these (the Minor) Coins to and from the Mint will be paid at the Department", &c I beg leave to ask whether the Express Co is to include in its bills against this Mint, for transportation of the outgoing Coin, the cost of delivering same from the various Subtreasuries to the Mint, for reissue. It would appear from a close reading of the item in the act, appropriating $5000.00 "for the expense of such reissue", that the reissue transportation expense only, is to be paid from the above sum. Please advise me on this point.

Very Respectfully,

[signature]

Supt

Hon. Jas. P. Kimball.
Director of the Mint.

24. Augt. 6

Sir;

Under section 3504 Revised Statutes I have appointed Miss Alice B. King an Adjuster in this Mint - on the recommendation of the Corps herein enclosed - @ $1.75 per diem, to take effect on Confirmation, and submit the same for your approval

Very respectfully

Superintendent

Hon. James P. Kimball
Director of the Mint
Washington
D.C.

Aug 16th 1876

Sir,

In the absence of any instructions relative to the payment of Express Charges for transporting Standard Silver Dollars to the Post Office Vaults, it has been the custom down to the present time, to debit this expense to the Silver profit Fund.

It occurs to me however, that this charge might properly be placed against the Appropriation for the Coinage of Standard Silver Dollars; but I have thought it best to bring the subject to your attention, with the view of having it officially adjusted.

Very Respectfully.

Supt.

Hon James P. Kimball.
Director of the Mint.
Washington D.C.

25. Aug 6

I Certify that a set of standard gold-coin weights manufactured by Henry Choemmer, Philadelphia, for the Assistant Treasurer, U.S. at New Orleans, La., in pursuance of an order to that effect from Hugh S. Thompson, Esq., Assistant Secretary of the Treasury, dated August 3rd. 1886, were duly tested by me in this Mint and found to be correct

You will please deliver to Thomas J. Gibson, for temporary use in handling mine coins to be cleaned and reissued, the new iron chest now standing outside of the north melting room, first removing its contents, containing this order in your voucher.

Respectfully

[signature]

Supt

No. 13. Boyd, Esq.

Acting Mt. Pr.

U. S. Mint

25: Aug 6

Sir;

On the 29th ulto: I had the honor to receive by mail from your department samples of bags to hold 1000, and 500 silver dollars, respectively, stating that the department had made a contract with The John Shillito Company of Cincinnati, Ohio, for such bags as would be required by the Treasurer of the United States and the several Assistant Treasuries, during the current fiscal year, and of which the Mints could avail themselves if it was decided to be advantageous.

On receiving this I submitted the bags to the examination of Williaim J. Steel Esq Assayer, and Mrs Sexton Chief Adjuster, who

with several of our assistants, gave them careful Consideration, the Ladies making a report thereupon to Mr Sheel.

Mr Sheel has handed me a letter this day dated 10th instant, saying that the sample bags were found to be stitched with Cotton thread, and with the weight of the Coin and many handlings the bags would be liable to break; while the bags made in the Mint are hand-sewed with linen thread and overseamed so as to be able to bear the heavy pressure when piled in the vaults and that they prove to be satisfactory for the purpose. A copy of his letter is enclosed.

With this report made to me, and having in view the hard usage to which the bags are subjected, I would

feel a hesitancy in using those of the
Phillips Manufacturing Co.

Very respectfully

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D. C.

Mint of the United States at Philadelphia, Pa.

COINER'S DEPARTMENT.

August 10th, 1886.

Hon Daniel M Fox,

Superintendent

Sir,

I have the honor to report that the Sample bags to hold 1.000 and 500 Silver Dollars respectively, sent by the Director for examination, were found to be Machine stitched with cotton thread, and with the weight of the coin and the many handlings the bags would be subjected to, the stitches are liable to break. The bags made in the Mint are hand-sewed with linen thread, and over seamed, so as to be able to bear the heavy pressure put upon them when piled in the vaults, and prove to be satisfactory for the purpose.

Mint of the United States at Philadelphia, Pa.

COINER'S DEPARTMENT,

The cost of the material for the large bags used here, including the thread, would be about five (5¢) cents each, the Ladies doing the Sewing during regular hours when not otherwise engaged.

Very Respectfully,
Your Obt Servant,
(Signed) A. S. Steel.
Coiner.

Sir

We are now in full operation in the cleansing of minor Coinage, and the question naturally arises after being cleansed and ready for reissue, what are we to do with them.

Are we to hold them, and only reship them, under Treasury order, or are we to pay them out over the Counter and ship them on deposit of amounts from Banks and other institutions that make demand for them.

An immediate reply will be appreciated.

We have to day $1700 in present pieces ready for reissue or may be

determined in answer to the inquiry
herein above made

Sir;

Herewith I have the honor to report the estimates of appropriation required for the services of this Mint during the fiscal year ending June 30. 1888. In doing so I beg to say that I submit for your consideration, and to those to whom the matter must ultimately go, the slight increase in the salaries of 2 of the officers to wit:- that of The Chief Clerk of $1200 00. Hitherto the Cashier, who has justly earned it, has been receiving a salary of $2500. In view of the enlarged duties of the Chief Clerk, incident to the very great increase in the work of the Mint, in its various

forms, I recommend his salary be made equal to that of the Cashier - as I regard them equally important.

Furthermore, the Bookkeeper hitherto has been receiving $2000 for a considerable number of years. The work done by that gentleman, I need not say, is of exceeding great importance, and has become greatly enhanced for two reasons: 1st. the increase in the usual requisitions for Coinage involving special labor to him; and 2nd. by his supervision of the respective departmental system of bookkeeping so that each department by this system will exhibit its own maintenance

It is quite customary long after the ordinary days work is done for me to find the bookkeeper, Mr Cowperthwait, bending over the books in order to finish up the

2

daye work without leaving any drift for the morrow. His industry and faithfulness commands my respect and I believe the increase in his salary, asked for, to be due to that kind of service, and will be fully earned by him.

You will therefore see that the item for salaries will exceed the present year, to wit.- $42.300- by an aggregate increase of $750.

In regard to the item "Wages of Workmen" you will observe that the appropriation of the present year is $293.000. Having in view economy, I have placed the amount for the year 1888, as you will see, at the round sum of $300.000 so as to cover possible enhancement of labo on the part of employees created by increase

of business

Very respectfully

Washington. D.C.

August 28th 6.

Sir.

Our supplies of blanks for the current fiscal year are coming to hand from the Government Printing Office by instalments. Amongst the last arrivals are 500 each of Forms Nos. 143 and 263. "Weight of Gold Deposits," and "Requisitions for Fine Gold Bars." but by some ~~~ inadvertence, printed in Bronze ink instead of the required Red ink, and therefore useless to us.

Our blanks for Gold Bullion and Bars have always been printed in red ink, to distinguish them from all others, and thus prevent mistakes, by enabling our Clerks and Assistants to know at a glance,

under whatever pressure at their desks, that they are using the right blanks for Gold without stopping to scrutinize and compare. As this is a matter of substance I have to request that these bronze blanks be replaced by 500 of each, printed in red ink, and forwarded to this Mint as soon as may be practicable.

Very Respectfully,

H C Hickok

Acting Supt.

Hon Jas P Kimball,
Director of Mint,
Washington. D. C.

[Ed. 7-28-85, 1000]

31. Augt 6.

Sir;

I have the honor to enclose a copy of a letter addressed to me this morning by M. H. Cobb Esq my Cashier, who pays special attention to the matter of the dealing and receive of the Minor Coinage sent to be for renovation.

You will observe on reading his letter that there is an embarrassment in performing the work, involving the Consumption of time, created in Counting the old and new issues of Nickel pieces, as they must be Counted twice: immediately upon their receipt, and also after the work is done, in order to secure accuracy. We are obliged in Counting on the boards, to separate the two styles, and this

very much delay the work.

I would respectfully suggest if it meet with your approval that you apprize the Treasurer of the United States of this Condition of the Coin. It seems to me it would not create material additional trouble to accomplish it, to request him to instruct Assistant Treasurers and Redemption Agents to the old and the new 5 ¢ Nickels in separate bags or boxes before they reach the Mint.

Besides facilitating the work, under the present pressure of the Government for Minor Coinage, it would contribute greatly to the promotion of the public interests in that regard

Very respectfully

Wm. M. Fox

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D.C

(Copy)

August 31. 6

Sir,

I beg to inform you that the five Cent Nickel Coin transferred from the Baltimore Sub. Treasury to the Mint for cleaning and reissue are found to be mixed, old strike and new strike, and very difficult to manage except at considerable loss of time. The two styles must be separated by hand, and cleaned as well as counted, separately. This will delay the reissue some days.

Would it not be well to apprise the Treasurer of the United States of this condition of the Coin and ask him to instruct Assistant Treasurers and Redemption Agents not to mix the old and new pattern Five Cent Nickel? If despatch is required

in cleaning and reissue it can be secured only by the separation of the Coin before they reach the Mint

Respectfully
M. H. Cobb
Cash.

M & R Dpt

2 Septem. 6

Sir

I have been looking with some degree of care into the present condition and workings of this Mint, especially with reference to the heavy and increasing demands made and likely to be made upon it, and my observations lead me to the conclusion that it can be more economically and efficiently worked to its maximum capacity by a double shift of operatives of 8 hours each - one to be on duty from 8 A.M. to 4 P.M. and the other from 4 P.M. to midnight, in at least three of the subordinate departments of this institution; to wit; 1, the Melting Rooms in the Melter & Refiners Department 2, the Rolling, Cutting and Annealing Room; and 3, the Clea-

Room; the two latter in the Comier's Depart-
ment.

Experience during the last year has led
me to believe that 14 to 16 hours a day
of the kind of work required in the Depart-
ments named, especially in a torrid tem-
perature during the summer months, is more
than a working man of average strength
and health can long endure without going
on the sick list, and remaining idle one or
more days at a time from temporary dis-
ability causes intermittent loss in the
regularity and lessened out-put of Com.

Overtime exacted from hands not well
able to endure this additional labor, is not
likely to be very profitable to the Government;
and overtime that is sought for by the more
robust and ambitious, as an (additional)

pecuniary speculation, unmistakably leads to less steadiness and efficiency, and a holding back of the work at regular hours — and this also tends to an inevitable loss to the Government.

Sixteen hours of work per day by two equal details of men, at the same wages, would cost no more than only one set of men for the same number of hours, whilst the advantages of a double arrangement, would obviously be very great, in the increased steadiness and uniformity of effort which would be distributed all through, where there was no expectation of overtime. The men would be under better control, and the Superintendent and Heads of Departments would be relieved of considerable anxiety as to results that are inseparable from the present unequal method.

On every ground it seems to me that the proposed double shifts (alternating every other week as to day and night duties) to the extent indicated, would not only be expedient, but would be a positive advantage to the Government.

The productive capacity of the Coining room is more than equal to the maximum output of all the other departments, and its duties are less exhausting, and therefore, I abstain at present from a recommendation of a double shift to include that department.

A double shift is required in only one division of the General Department — the Cent Room. If the redeemed minor Coins in the Sub-Treasuries are to be cleaned and reissued, within a reasonably early period of time, so as to save public clamor and

relieve the Government from importunity for minor Coinage, it will be necessary to employ one set of Counters from 8 a.m. to 4 p.m. to Count, pickout, and assort redeemed coins for cleaning, which work can only be done by daylight, and another set from 4 p.m. to midnight. During this latter period the cleaned & new Coins could be Counted and bagged.

In this Connection I would say that the arrangement for double sets in the Adjusting Room has worked quite Satisfactorily, and I do not see no reason for even a possibility of any other result, were a similar organization of the force in the male Departments mentioned, adopted.

I may add that were the force to be thus mentioned increased not exceeding one third of the present number with duplicate

foremen, engineers, fireman and other officers connected with the Mechanical Departments, where needed, it would be ample to serve the public interests and I do believe at a less expense than obtains at present.

The Correspondence with this institution is so heavy, upon the question of obtaining minor coins, that I am led to believe that many months of industrious effort, will be required to supply the heavy demand for minor coins alone

These views are submitted for your consideration and instruction and I beg for an answer at your earliest convenience

Very respectfully
David M. Fox
Superintendent

Hon: James P. Kimball
